

“All Scripture is inspired by God, and profitable for teaching, for proof, for correction, for gaining in righteousness, so that the man of God may be equipped, having been thoroughly equipped for every good work” (2 Timothy 3:16-17 Legacy Standard Bible, marginal reading). The Bible has abundant archaeological evidence in support of it, as evidenced by the amphitheater in the ancient city of Ephesus ([Acts 19](#); [1 Corinthians 16:8-9](#); [Ephesus 1:1](#)).

Critics who brush off the Bible as a compilation of mythology and legends, do so overlooking the fact that archaeologists have made thousands of discoveries over the past century and a half that have verified hundreds of details in the Bible. The articles, audio, books, and videos in the link below explain some of these exciting discoveries and why you can be confident in the Bible, its authenticity, and its ultimate author, Almighty God.

Archaeological Evidence for the Bible
