

Is there enough evidence to prove God's existence? Atheists say, "No!"

"Since the creation of the world God's invisible qualities — his eternal power and divine nature — have been clearly seen, being understood from what has been

made, so that people are without excuse”—Romans 1:20 NIV

BIBLICAL CHRISTIANITY REQUIRES LESS FAITH TO BELIEVE IN THAN ATHEISM

While Christians are often derided for their seemingly “blind faith” in the Creator/God’s existence, the facts give powerful evidence the Biblical Creator/God is real.

The overwhelming scientific evidence confirms the essential truths of the “Big Bang”. In just the last 100 years, scientists, such as cosmologists and astronomers, have been forced by their very own discoveries to admit the universe had a beginning, which harmonizes with what the Bible stated as fact thousands of years ago. For example:

“In the beginning God created the heavens and the earth”—Genesis 1:1

“By faith we understand that the universe was formed at God’s command, so that what is seen was not made out of what is visible”—Hebrews 11:3 NIV

All the ancient pagan creation myths said the universe was made out of pre-existing material. Only the Bible said it was made out of nothing that was visible.

“Every house is built by someone, but God is the builder of everything”—Hebrews 3:4 NIV

This illustration of a house giving evidence of a builder is very logical. Likewise, the very highly organized and finely-tuned universe gives overwhelming evidence of a creator.

“This is what God the LORD [Yahweh] says—the Creator of the heavens, who stretches them out”—Isaiah 42:5 NIV

The Bible, 2,700 years ago, seems to refer to the expansion of the universe. Astronomers have discovered the universe is expanding at the exact speed necessary to continue its

existence eternally.

“He spreads out the northern skies over empty space; he suspends the earth over nothing”—Job 26:7 NIV

How could Job know this 3,500 years ago, when all the pagan fables said the earth was held up by something else?

“He sits enthroned above the circle of the earth”—Isaiah 40:22 NIV

How could Isaiah know the earth was round, when all the worldly wise people said it was flat?

After COBE found proof of the variations in the temperature of the cosmic background radiation, which provide further solid evidence of the “Big Bang”, the project leader, astronomer George Smoot, said, “If you’re religious, it’s like looking at God.” University of Chicago astronomer Michael Turner said, “the significance of this cannot be overstated. They have found the Holy Grail of Cosmology.” The temperature variations are so exactly in harmony with the “Big Bang” that Smoot called them the “machining parts of the universe” and the “fingerprints of the maker.”

Is there enough evidence to prove God’s existence? To be an atheist, one has to deny and/or ignore the enormous evidence of a Creator. **“The fool says in his heart, ‘There is no God’” (Psalm 14:1).** It takes a lot of “blind faith” to be in such denial! The facts are that there is more than enough evidence to prove God’s existence!
